

Activity Time

Case Study 1

Customer sign in to a web application to submit a form. After filling the form and submit button pressed, there is no response from the application.

Case Study 2

Customer wants to access a web application. Customer enter the correct URL on his web browser and saw an error message "This site can't be reached".

Case Study 3

Customer wants to access a web application. Customer enter the correct URL and the page seems to be loading forever and become unresponsive.

Activity Time

Case Study #	What went wrong?	Where went wrong?	How to mitigate?
1			
2			
3			
E.g.	(Paragraph) Server A cannot connect to Server B	(Option) Server or Software or Network	(Paragraph) Inspect to ensure Server A and Server B are in the same network

Activity Time + Break

In this activity, break into teams of 3 and work on one of the following based on the earlier video:

Research Problem	Answer
What are the key success factor to cloud migration?	<i>Name 3 and explain them</i>
What is Application Modernization?	<i>Explain application modernization</i>
What does it mean to build cloud native software?	<i>Name 3 and explain them</i>
