- Elastic Beanstalk
- Lambda & Batch
- Systems Manager & OpsWork
- CloudWatch & CloudTrail
- CloudFormation
- CodeBuild, CodeDeploy & CodePipeline
- CloudFront & Global Accelerator
- Cost Explorer & Billing Alarms

Topics

You may choose one of the following topics below for a simple 10-min - 15-min sharing with the class starting from Module 2.5 onwards:

- Route 53 & API Gateway
- Outposts & Direct Connect
- SQS & SNS
- Kinesis Family
- X-Ray & CodeGuru
- Shield & WAF
- KMS & HSM
- Guard Duty & Macie

Just Have Fun With It

You can make the presentation light-hearted and simple, the idea is to have a **good overview of the services you are presenting on** and **sharing** them with your classmates.

Feel free to refer to online AWS materials, unofficial study guides or others.
